

Markus Huber

Dr., Bakk., MSc.

Publications 2008 - 2014

Conference proceedings

- [1] Markus Huber, Stewart Kowalski, and Marcus Nohlberg. Measuring readiness for automated social engineering. In *In CD ROM Proceedings of the 7th Security Conference*, 6 2008.
- [2] A. Davidson, J. de La Puente Martinez, and M. Huber. A swot analysis of virtual laboratories for security education. In *Education and Technology for a Better World incl CD Rom version*. Tatnall, A and Jones, A, 2009.
- [3] Markus Huber, Simon Tjoa, Stewart Kowalski, and Marcus Nohlberg. Towards automating social engineering using social networking sites. In *Computational Science and Engineering, IEEE International Conference on*, volume 3, pages 117–124. IEEE Computer Society, 1 2009.
- [4] Peter Fruehwirt, Markus Huber, Martin Mulazzani, and Edgar R. Weippl. Innodb database forensics. In *Proceedings of the 24th International Conference on Advanced Information Networking and Applications*, 4 2010.
- [5] Markus Huber, Martin Mulazzani, and Edgar R. Weippl. Tor http usage and information leakage. In *Proceedings of IFIP CMS 2010*, pages 245–255, 5 2010.
- [6] Markus Huber, Martin Mulazzani, and Edgar R. Weippl. Who on earth is mr. cypher? automated friend injection attacks on social networking sites. In *Proceedings of the IFIP International Information Security Conference 2010: Security and Privacy*, 9 2010.
- [7] Markus Huber, Martin Mulazzani, Manuel Leithner, Sebastian Schrittwieser, Gilbert Wondracek, and Edgar R. Weippl. Social snapshots: Digital forensics for online social networks. In *Annual Computer Security Applications Conference (ACSAC)*, 12 2011.
- [8] Peter Kieseberg, Sebastian Schrittwieser, Lorcan Morgan, Martin Mulazzani, Markus Huber, and Edgar R. Weippl. Using the structure of b+ trees for enhancing logging mechanisms of databases. In *International Conference on Information Integration and Web-based Applications and Services (iiWAS2011)*, 12 2011.
- [9] Peter Kieseberg, Sebastian Schrittwieser, Martin Mulazzani, Markus Huber, and Edgar R. Weippl. Trees cannot lie: Using data structures for forensics purposes. In *European Intelligence and Security Informatics Conference (EISIC 2011)*, 9 2011.

- [10] Martin Mulazzani, Sebastian Schrittwieser, Manuel Leithner, Markus Huber, and Edgar R. Weippl. Dark clouds on the horizon: Using cloud storage as attack vector and online slack space. In *USENIX Security*, 8 2011.
- [11] Sebastian Schrittwieser, Peter Fruehwirt, Peter Kieseberg, Manuel Leithner, Martin Mulazzani, Markus Huber, and Edgar R. Weippl. Guess who is texting you? evaluating the security of smartphone messaging applications. In *Network and Distributed System Security Symposium (NDSS 2012)*, 2 2012.
- [12] Markus Huber, Martin Mulazzani, Sebastian Schrittwieser, and Edgar Weippl. Appinspect: Large-scale evaluation of social networking apps. In *Proceedings of ACM conference on Online Social Networks (COSN)*, 2013.
- [13] Katharina Krombholz, Heidelinde Hobel, Markus Huber, and Edgar R. Weippl. Social engineering attacks on the knowledge worker. In *Proceedings of the 6th International Conference on Security of Information and Networks*, pages 28–35. ACM, 11 2013.
- [14] Martin Mulazzani, Sebastian Neuner, Peter Kieseberg, Markus Huber, Sebastian Schrittwieser, and Edgar R. Weippl. Quantifying windows file slack in size and stability. In *Ninth Annual IFIP WG 11.9 International Conference on Digital Forensics*, 1 2013.
- [15] Martin Mulazzani, Thomas Unger, Edgar R. Weippl, Sebastian Schrittwieser, Markus Huber, and Dominik Frhwirt. Shpf: Enhancing http(s) session security with browser fingerprinting. In *Proceedings of the Eighth International Conference on Availability, Reliability and Security (ARES)*, 9 2013.
- [16] Sebastian Schrittwieser, Stefan Katzenbeisser, Peter Kieseberg, Markus Huber, Manuel Leithner, Martin Mulazzani, and Edgar R. Weippl. Covert computation - hiding code in code for obfuscation purposes. In *Proceedings of the 8th International Symposium on ACM Symposium on Information , Computer and Communications Security (ASIACCS 2013)*, 5 2013.
- [17] Stefanie Beyer, Martin Mulazzani, Sebastian Schrittwieser, Markus Huber, and Edgar R. Weippl. Towards fully automated digital alibis with social interaction. In *Tenth Annual IFIP WG 11.9 International Conference on Digital Forensics*, 1 2014.
- [18] Philipp Winter, Richard Koewer, Martin Mulazzani, Markus Huber, Sebastian Schrittwieser, Stefan Lindskog, and Edgar R. Weippl. Spoiled onions: Exposing malicious tor exit relays. In *The 14th Privacy Enhancing Technologies Symposium (PETS)*, 7 2014.
- [19] Katharina Krombholz, Peter Fruehwirt, Peter Kieseberg, Ioannis Kapsalis, Markus Huber, and Edgar R. Weippl. *QR Code Security: A Survey of Attacks and Challenges for Usable Security*, pages 79–90. Springer, 0 2014.

Journals

- [1] Martin Mulazzani, Markus Huber, and Edgar R. Weippl. Anonymity and monitoring: How to monitor the infrastructure of an anonymity system. *IEEE Transactions on Systems, Man, and Cybernetics, Part C: Applications and Reviews*, pages 539–546, 9 2010.
- [2] M. Huber, M. Mulazzani, E. Weippl, G. Kitzler, and S. Goluch. Friend-in-the-middle attacks: Exploiting social networking sites for spam. *Internet Computing, IEEE*, 15(3):28–34, may-june 2011.
- [3] Sebastian Schrittwieser, Stefan Katzenbeisser, Peter Kieseberg, Markus Huber, Manuel Leithner, Martin Mulazzani, and Edgar R. Weippl. Covert computation - hiding code in code through compile-time obfuscation. *Computers & Security*, 5 2014.

Magazines

- [1] Markus Huber and Peter Kieseberg. Phishing mit sozialen netzwerken. *Hakin9*, 5 2011.
- [2] Markus Huber. Social snapshot framework: Crime investigation on online social networks. *ERCIM News*, 90:28, 7 2012.

Workshops

- [1] Markus Huber, Martin Mulazzani, Sebastian Schrittwieser, and Edgar R. Weippl. Cheap and automated socio-technical attacks based on social networking sites. In *3rd Workshop on Artificial Intelligence and Security (AISec'10)*, 10 2010.
- [2] Markus Huber, Martin Mulazzani, and Edgar R. Weippl. Social networking sites security quo vadis. In *Proceedings of the 1st International Workshop on Privacy Aspects of Social Web and Cloud Computing*, 8 2010.
- [3] Peter Fruehwirt, Peter Kieseberg, Sebastian Schrittwieser, Markus Huber, and Edgar R. Weippl. Innodb database forensics: Reconstructing data manipulation queries from redo logs. In *The Fifth International Workshop on Digital Forensics*, 8 2012.
- [4] Martin Mulazzani, Philipp Reschl, Markus Huber, Manuel Leithner, Sebastian Schrittwieser, and Edgar R. Weippl. Fast and reliable browser identification with javascript engine fingerprinting. In *Web 2.0 Workshop on Security and Privacy (W2SP)*, 5 2013.
- [5] Sebastian Neuner, Victor Van der Veen, Martina Lindorfer, Markus Huber, Georg Merzdovnik, Martin Mulazzani, and Edgar R. Weippl. Enter sandbox: Android sandbox comparison. In *Proceedings of the IEEE Mobile Security Technologies Workshop (MoST)*. IEEE, 5 2014.

Poster

- [1] Markus Huber, Martin Mulazzani, Edgar R. Weippl, Gerhard Kitzler, and Sigrun Goluch. Exploiting social networking sites for spam. In *Proceedings of the 17th ACM conference on Computer and communications security*, pages 693–695, 10 2010. Poster - ACM CCS 2010.
- [2] Markus Huber and Edgar R. Weippl. Social snapshots: Sns data extraction for research and forensics. In *Einsteins in the City 2011*, CUNY, New York City, 4 2011.
- [3] Philipp Reschl, Martin Mulazzani, Markus Huber, and Edgar R. Weippl. Efficient browser identification with javascript engine fingerprinting. In *Annual Computer Security Applications Conference (ACSAC)*, 12 2011.

National conferences

- [1] Peter Fruehwirt, Markus Huber, Martin Mulazzani, and Edgar R. Weippl. Sicherheit in sozialen netzwerken: Quo vadis. In *8th Information Security Konferenz in Krems*, 11 2010.
- [2] Martin Mulazzani, Sebastian Schrittwieser, Manuel Leithner, Markus Huber, and Edgar R. Weippl. Cloud speicherdienste als angriffsvektoren. In *9th Information Security Konferenz in Krems*, 10 2011.
- [3] Sebastian Schrittwieser, Peter Fruehwirt, Peter Kieseberg, Manuel Leithner, Martin Mulazzani, Markus Huber, Gilbert Wondracek, Sylvi Rennert, and Edgar R. Weippl. Secure software in der cloud. In *Tagungsband Cloud und Klein: IT im Spannungsfeld zwischen Servercluster und Sensornetz*, 4 2012.
