European Project Semester (EPS)

Gain international experience by working on technology-oriented projects in interdisciplinary and multicultural teams

fhstp.ac.at/eps

Shape Your Future at the St. Pölten UAS

The modern world is constantly becoming more complex and diverse. Technology, international collaboration and critical thinking are increasingly important. For this reason, EPS teaches future professionals to think outside the box and find innovative solutions to problems while being sensitive to different cultures and communities.

What is the idea behind it?

The European Project Semester is a joint programme of European universities which is open to students who have completed at least two years of studies and want to gain experience abroad. For one semester, the participating students work on predetermined projects from the fields of **media technology**, **data science** and **smart engineering**. The English-language programme comprises 30 ECTS credits and enables the participants to strengthen their intercultural competencies by working together with students from different countries and backgrounds.

What can I expect?

EPS students work in small international and interdisciplinary project teams supported by their supervisors and tutors. Accompanying, project-specific courses provide the basis for the successful completion of the programme. We offer excellent working conditions to our students, which is why the projects are carried out in cooperation with the numerous practice labs, thus ensuring that the students have access to state-of-the-art equipment and facilities.

Study Contents

- Interdisciplinary project
- Project-specific courses
- Project management
- Conversation and language courses
- Team-building events
- Social activities

Admission Process

- Application documents
- Letter of motivation + CV
- Proof of English language proficiency at level B1 or higher
- Skype interview

Facts

- **Focus areas:** Media Technology, Data Science, Smart Engineering
- **Information and application:** fhstp.ac.at/eps
- **Application deadline:** 15 May for the winter semester / 15 Nov. for the summer semester
- **Duration:** 1 semester
- **Language of instruction:** English
- **Credits:** 30 ECTS
- **Tuition fees:** no tuition fees for Erasmus and Joint Study students
- **Project teams:** between 4 and 6 students

If you are interested in joining the EPS at the St. Pölten UAS or have any questions or concerns, do not hesitate to contact the Office for International Relations at international@fhstp.ac.at.

EPS Project Examples

Our projects are as diverse as our university!

In the course of the EPS, students have developed interactive musical apps, designed online games and built robots. Visit fhstp.ac.at/eps to learn more about past projects and get inspired.
