Explanations

General semester duration

Winter and summer semester always begin and end at the same time.

Winter semester: 1 September to 14 February

Summer semester: 15 February to 31 August

These dates set the basic framework for the duration of the semester. Within these periods, enrolled regular students and extraordinary students in further education programmes are insured and a confirmation of enrolment can be issued (provided there is no interruption)

This academic calendar is part of the UAS statutes and is redefined for each academic year (with exception of the framework of the semester duration).
